

PRESS RELEASE

CD AVIATION SERVICES RECEIVES FAA APPROVAL FOR TPE331 ENGINE MAINTENANCE TRAINING

The FAA recognizes and approves the 1-Day TPE331 Engine Maintenance Training Program as an IA Refresher Training Course offered by CD Aviation Services

CD Aviation Services

March 2010

CD Aviation Services is pleased to announce that it has received FAA approval for the EMT (Engine Maintenance Training) as an IA Refresher Training Course. The EMT is a one day course providing general information, familiarization and troubleshooting for the Honeywell TPE331 series of engines.

Mike Straus, Instructor, has over 37 years of experience with the TPE331 engine and offers the training in several locations nationally and internationally. The EMT program, in addition to the one day Familiarization course, offers a 5 day Line Training and can also provide other specific training upon request.

Please contact CD Aviation Services at 417-206-2327 or visit the website at www.cdaviationservices.com for training schedules, locations and any questions regarding WINGS credit, AMT credit or IA Refresher credit through our EMT Program.

CD Aviation Services is a Honeywell Authorized, FAA, EASA, ANAC and AMO Transport Canada Certified Part 145 Repair Station providing service capabilities for the TPE331, TFE731 and APU engines.

For more information on CD Aviation Services and our Engine Maintenance Training Program please visit our web site at www.cdaviationservices.com or call our toll free # 866.975.2327.

CD Aviation Services provides quality maintenance services while ensuring added value and superior customer service.
